

NEW PARKING SYSTEM COMING SOON

We would like to inform you that a new camera controlled car park management system will be implemented at Beacon Centre for Health shortly.

Once the new signage is in place, motorists will be required to follow the terms and conditions on the signage.

Details of the new parking restrictions are below.

The aim is to improve access for patients attending appointments by reducing the levels of unauthorised parking.

Thank you for your co-operation.

ParkingEye
car park solutions
